AC Hotel Denver Downtown

The 223-room AC Hotel Denver Downtown (one-half of a dual-branded property with Le Méridien) comprises a distinct European-inspired ambiance. To counter Le Méridien's feminine aesthetic, Simeone Deary Design Group chose a masculine design scheme, incorporating warm textures and angular furniture that recall men's tailored suits.

Mountain Modern Motel

Jackson Hole, Wyoming

Photos by GARRETT BYRUM

An ode to Jackson Hole's landscape and the outdoor adventures it nurtures, the 135-room Mountain Modern Motel playfully transcends the notion of a simple motor inn. Beyond the wraparound porch, guestrooms are outfitted with bespoke, oversized wallcoverings illuminating rugged Grand Teton scenery, plaid blankets, and convenient stash-your-gear walls.

Times Ocean Club House

Guangzhou, China

Encompassing a gym, dance studio, swimming pool, and rooms for billiards and table tennis, the club unites geometric lines with marble mosaic grain in the lobby, where its irregular staircase doubles as a sculpture. On the basketball court, the walls and ceiling are merged, their curved relationship amplified by LED lighting, while an undulating ceiling in the pool area mimics waves.
